

Brand system

Intelligence *in motion.*

A visual system for an AI-native contact center that moves customer intent toward a grounded answer, an approved action, or a context-rich human handoff.

One useful *outcome.*

The brand makes sophisticated contact-center infrastructure understandable. Begin with intent, show controlled intelligence at work, and end with a clear next step.

01

Grounded answer

Approved knowledge, expressed with clarity and source-aware confidence.

02

Approved action

Permissioned work with visible control, verification, and a receipt.

03

Human handoff

A calm transition with customer context intact and no forced restart.

BRAND CHARACTER

Precise

Exact about what the system knows and did.

Human

Natural language without pretending to be a person.

Composed

Complex operations feel calm and ordered.

Progressive

Every frame implies useful forward motion.

A coordinated *handoff.*

Two paths
approach.

They meet, resolve,
and align.

Together,
they continue.

CORE IDEA

Two forms approach, meet, and continue together. The rounded field, pink spectrum, and white symbol are one protected unit.

Simple.
Controlled.
Connected.

Keep it *recognizable.*

CLEAR SPACE

Use clear space equal to one quarter of the icon width on every side.

MINIMUM SIZE

Keep the icon at 24 px or larger. Use the full wordmark lockup at 120 px or larger.

APPROVED BACKGROUNDS

Use Cloud White, Deep Ink, or the controlled XIFI spectrum.

NEVER

✗ Stretch or skew

✗ Recolor the symbol

✗ Add outlines or effects

✗ Place on visual noise

Color carries the conversation.

The spectrum moves from signal to intelligence to human resolution. Use it directionally, with restraint, and beside generous neutral space.

Outfit

Geometric enough for technology. Open enough for people.

Human clarity.
Machine precision.

DISPLAY / 72-120

Move with purpose.

HEADING / 40-72

Clear at every turn.

BODY / 16-20

Short paragraphs make a complex system easier to navigate.

Simple. Controlled. *Connected.*

SAY

Here's what I found.

Based on your context...

Here's what we can do next.

I'll connect you with a person who can help.

DON'T SAY

I think...

You need to...

As an AI model...

Please hold while I transfer you.

Recognizable *at every scale.*

The identity stays calm and exact as an app icon, a product surface, or a single campaign statement.
